

Old cell phones? Don't trash or stash them- Recycle for MCUM!

Monroe County United Ministries Cell Phone Recycling Drive

Recycling for a Cause

By recycling phones through Shelter Alliance, an organization with zero landfill and no-export policies, MCUM is paid per phone (\$0.50 - \$50, depending on age and condition). Your active participation means greater revenue for MCUM's efforts to provide affordable childcare and basic needs assistance in Monroe County.

Get rid of clutter while supporting affordable childcare and fighting hunger!

3 things to remember:

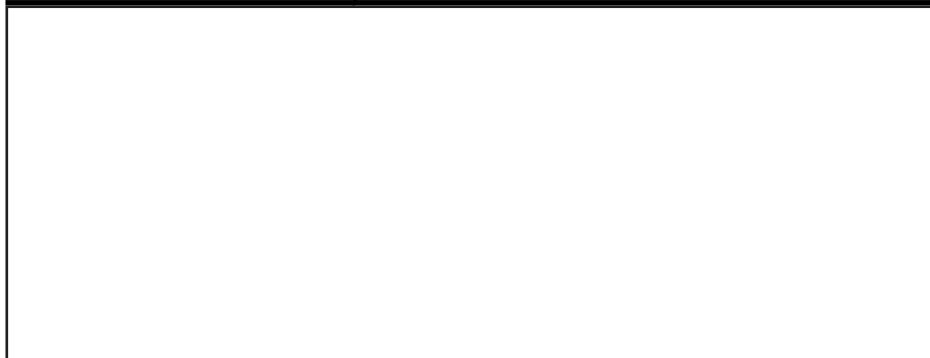

- Terminate your service.
- Clear the phone's memory of stored information.
- Remove your SIM card.

Benefits of Recycling

1. Responsible disposal: Your donation keeps phones out of landfills. Many "recycling" programs ship electronic equipment to developing countries to be processed in ways that put human lives and natural resources at risk.
2. Revenue helps provide subsidized, high-quality childcare for over 80 low-income children and basic needs assistance for Monroe County residents in crisis. Our Emergency Services Program provides: emergency food supplies, hygiene and cleaning products, clothing, bus vouchers, and rent and utility assistance.

Where to Recycle

Help reduce toxic waste while helping a neighbor in need.
