

About Logan

I'm Logan Pfeifer and I am so excited to begin my journey working with MCUM as the Early Childhood Mental Health Therapist! It is important to me that your family feels comfortable, informed, and encouraged in gaining access to mental health services for your child. Research has shown early intervention and ongoing support are key components in helping children address issues later in their lives. Therapy and regular therapeutic engagement promote positive connections and teach children skills necessary for coping with difficult or dangerous situations in the future, and help the child to understand and regulate emotions surrounding these events in a healthy way.

As a Licensed Social Worker, I have dedicated my life to helping individuals and families reach their full potential. I received my undergraduate degree from Indiana University in 2011 with a BA in Criminal Justice. While I was very interested in juvenile justice and prison reform issues, I felt as if I was not doing enough to help my community and decided to continue my education to meet that goal. I received my Masters of Social Work (MSW) in 2016 from IUPUI with a focus on child development. Working with families and young children is my passion, and I am so fortunate to have the opportunity to make a positive impact in the lives of the families of Compass! As a team, we will work together to determine goals for your child and will create a reasonable plan to accomplish them.

Therapy is a wonderful opportunity for children to express themselves freely and openly, and I hope the families of those children feel they are able to do the same throughout the process. Please know, my door is always open to you for any questions, concerns, or feedback you may have regarding therapy or my role here at Compass. I sincerely look forward to working with all of you, and I hope to meet you in person and learn more about what makes your family unique. 😊

Best, Logan Pfeifer
